

The Art of Caricaturing: A Series of Lessons Covering All Branches of the Art of Caricaturing, 2010, 96 pages, Mitchell Smith, 3867413762, 9783867413763, BoD Books on Demand, 2010

In the writing and illustrating of this book, the aim has been to produce a comprehensive and concise treatise of the art of caricaturing. It has been made as brief as is consistent with clearness and completeness. Although the text is brief, no illustrations were spared. The many plates illustrate all points necessary, and each of the points illustrated are explained in the text with reference to that particular illustration. Acting upon the assumption that it is easier to work if ones assignments are already made, Chapter XII has been made up of assignments and suggestions, which makes this book a complete course of caricaturing.
